

FY2005 Marshall County Central Point of Coordination Annual Report

This report will summarize the Marshall County Management Plan for Fiscal Year 2005. The Marshall County MH/DD advisory board consists of 13 persons with representation from two family members, three consumers, providers, and other interested persons. Quarterly advisory board meetings were held during FY05 with 18 unduplicated persons in attendance.

For quality assurance and stakeholder-input purposes, the CPC used a survey of consumers and providers to collect data about meeting provider and consumer needs. Surveys were sent randomly to approximately 25% of consumers in addition to a continued peer interviewer program, and sent to every provider. In addition, the Department of Human Services Targeted Case Management did a quality survey of Marshall County consumers and the summary of the results for all the surveys will be included in this report. The survey information will be used as input for changes to the management plan.

APPEALS

One appeal was filed in FY04, the hearing and outcome was determined in FY05. As a result of the hearing, Marshall County agreed to pay the service fee and mental health prescription medicine of the residential facility pending the Social Security hearing. This was a satisfactory agreement by both Marshall County and the attorney representing the consumer.

AMENDMENTS TO MANAGEMENT PLAN

No amendments to the plan were requested in FY05

FY05 activity:

The Marshall County CPC Administrator and Social Worker have been active participants in the Local Homeless Coordinating Board and have developed and updated a Community Resource Guide for the use of all participants.

To increase awareness the web site of the Marshall County Central Point of Coordination was continually updated. Included on the web site is the agenda of the advisory board meetings, posting of minutes of each meeting, copies of the annual report and the County Management Plan. The web site is listed on department business cards, brochures, letterhead and other correspondence.

The CPC Administrator participated in a live radio show with the Board of Supervisors to share information about the Department and answer questions from callers as well as the radio host.

A Transition Fair was held in Marshall County to share information about service agencies and the CPC office to middle school and high school students and their parents. Information was shared at a booth and through a presentation to everyone.

Consumer Survey

For FY05, we continued our goal of utilizing peers for a sample of consumer surveys. In addition to the peer portion outlined in Goal #1 of this report, the process of choosing the consumers who would receive the surveys consisted of selecting a computer sort that included all consumers that had services during Fiscal year 04-05. We then deleted the ones that were chosen for the peer survey so they did not receive two surveys. Due to the large number of consumers who only access the local mental health center provider Center Associates, the sort deleted persons whose only service was outpatient mental health, and then the sort selected every 3rd person to receive a survey. A self addressed stamped envelope was enclosed for return to the Central Point of Coordination office.

MANAGEMENT PLAN GOALS REVIEW

Goal #1 Peer Involvement for Satisfaction Surveys

“The Marshall County MH/DD Advisory Committee shall identify and facilitate implementation of appropriate policy and procedures to utilize peers in the process of consumer satisfaction surveys. These changes and enhancements shall allow Marshall County to receive a better understanding of the changes needed in the local system.”

Milestone 1a

The consumer survey used in previous years by consumer members of the MH/DD Advisory Committee. Suggestions for changes were implemented into the survey.

Three Consumers were chosen from local sheltered workshop to become peer surveyors and they met with the CPC Administrator and CPC Social Worker to review survey and discuss process to be used. Additional changes were suggested by the peer surveyors for implementation into the survey. These changes were accepted and implemented.

Fifteen Marshall County consumers at the sheltered workshop volunteered to take the survey. Each peer surveyor interviewed 5 consumers. The names of the consumers surveyed were submitted to the CPC to avoid duplication, however each survey was not identified by consumer. Process and results was shared with the MH/DD Advisory Board at the meeting on November 9, 2004. It was decided by the Advisory Board to continue with this goal.

Milestone 1b -

Results of the survey and feedback from the peers doing the surveys will be reviewed with the MH/DD Advisory Committee to evaluate how the trial process went and determine if full use of the peer process in regards to consumer surveys should be implemented. If positive feedback in this method of surveys is received and we are getting better information than we received with the mailed surveys we will continue this goal.

This milestone shall be completed by 6-30-05.

At the MH/DD Advisory Board meeting on 11-8-05, this goal was discussed. For FY06 it has been decided to not have any survey's done by peers and compare the number of surveys returned along with the actual results to see if the we are getting better information or only more numbers of surveys completed.

Goal #2 Emergency Short Term Needs

“The Marshall County MH/DD Advisory Committee shall implement new procedures for consumers to request funding for short-term emergency services. It is recognized that many requests may fall outside of the normal guidelines for funding and with policy developed, it may be possible to prevent more intensive service needs.”

Milestone 2a

Effective March 1, 2004, the Marshall County Central Point of Coordination and Marshall County General Assistance merged into one department now known as Marshall County Community Services. With the addition of General Assistance and using the guidelines for all residents, all emergency short term needs can be handled within the same department.

Goal Completed FY04.

Goal #3 Administrative

“The Marshall County MH/DD Advisory Committee shall, continue to monitor the success of the plan to assure our mission to serve persons with disabilities continues to meet the need. This goal will be completed by 6-30-06.

The MH/DD Advisory Committee will continue to review information at regular meetings and has reviewed the FY05 Annual report at the November 8, 2005 meeting and approved the report to be submitted to the Board of Supervisors and the State of Iowa.

The Marshall County Board of Supervisors accepted the Annual Report at the regularly scheduled on November 16, 2005.
